Claims 21-51 are allowed by the virtue of dependency on the allowed claim 20.

Regarding claim 52, the prior art fails to disclose or make obvious a method of determining the presence of a target species having the step of directing a first portion of the light or other radiation through a sample filter assembly, and directing a second portion of the light or radiation through a reference filter assembly, and in combination with the other recited limitations of claim 52. Claims 53-61 are allowed by the virtue of dependency on the allowed claim 52.
